Venue: Appleton House, Barkerend Road, Bradford, BD3 9BB

To book:

- [Internal council staff](#)
- [External colleagues \(inc. schools and Bradford Council casual staff\)](#)

You **do need** be there for the session start time and to commit to attend for the full 2 hours to make the session a successful learning opportunity for all! This session will count towards your CPD requirements.

Further details for each can be found on the next page but if you have any questions you can contact us at bscbtraining@bradford.gov.uk. We look forward to seeing you there!

1) Bradford Multi-Agency Protocol for Pre-Birth Assessments and Interventions

This Protocol has recently been revised. You will have an opportunity to make sure you are up to date with the new protocol to help you work effectively with partners on pre-birth assessments and interventions.

This area of practice has featured in a number of recent case reviews undertaken in Bradford, it is important everyone understands and follows the protocol.

You will work in a multi-agency group on a scenario based on real cases to help you improve and develop your knowledge and network with partners.

2) Adverse Childhood Experiences and Childhood Trauma

Adverse Childhood Experiences (ACE's) is being widely recognised as significant to the health and development of children continuing into adulthood.

It is crucial that all safeguarding practitioners have an understanding of ACE's and Childhood Trauma and the impact on child development.

There will be an opportunity to develop your understanding with reference research, film clips and case scenario's, and to consider how you can work with children and families in Bradford to help build resilience and mitigate against harm.

3) Multi-Agency Protocol for the Assessment of Bruising, Burns and Scalds in Non Mobile Babies

This protocol requires that all actual or suspected bruising, burns or scalds to babies who are not yet self-mobile should be subject to multi-agency investigation in order to assess risk of harm.

This area of practice has featured in a number of recent case reviews undertaken in Bradford, it is important everyone understands and follows the protocol.

You will work in a multi-agency group on a scenario based on real cases to help you improve and develop your knowledge and network with partners.
